

Date: June 28, 2006

To: Commissioner of Clark County for the city of Las Vegas, Nevada

Regarding: The Casita under construction at 6228 Dartle Street
Las Vegas Nevada 89130

Purpose: To house disabled mother-in-law
Disabled and retired from Seattle Community College

This Casita was undertaken due to the extraordinary circumstances of my health with the idea that I would live there. I am the recipient of bilateral hip replacements on both sides. The left one was so very bad that the bone broke during the process and had to be wired; it still causes me pain and discomfort. I cannot sit, stand or walk for very long periods of time due to this condition.

I am also a chronic asthmatic that I control with a nebulizer, albuterol inhaler and Theophylline medications. I was diagnosed with Trigeminal Neuralgia which without Carbamazepine medication is very painful and I cannot swallow solids. I am also under medications for Depression and I do believe that living in Las Vegas will help me with my depression.

Trying to manipulate the dual stair case in my son-in-law and daughter's home is extremely difficult for me because I am in pain and out of breath each and every time I have to use them. Therefore, I have been sleeping on their sofa downstairs living in the anticipation and dreaming of the day when the casita would be finished and looking forward to all of the freedoms that it will give me. There is a full kitchen, all for me, a bedroom, a living room and a facility to do laundry. I look forward to maintaining my autonomy for several years to come in this casita. The approval for this kitchen was requested back in October of 2005 but due to some confusion the approval he thought was given was not.

My son-in-law has done a lot of work and spent a lot of money in order for me to be comfortable and independent. Please tell me that after all of his efforts, you are not going to make him go in and remove all of these beautiful things that he has done for me, after all, how will I prepare my food and wash my dishes without a kitchen, and just think of all the money that he will loose.

If you could just come out and see what he had done for me, I am sure that you will be as proud of all of his efforts as I am and you will not make him start all over and make me continue to sleep on the sofa. I am grateful, but it is not very comfortable sleeping there.

Please come and see.

I am enclosing some of the information that I have on hand from my doctors. Please consider the circumstances and grant your approval for this very, very wonderful thing. I feel so blessed in knowing that there are children like him and my daughter and lucky that I don't have to struggle to survive on my social security income.

Thank you for your time and consideration.

Sincerely,

A handwritten signature in cursive script that reads "Frankie Mae Wright". The signature is written in black ink and is positioned above the printed name.

Ms Frankie Mae Wright
